

Progress Report Seminar Frühjahr 2013
jeweils am Dienstag um 8.30 Uhr im Y17 H05

Datum	Referent	Thema	Gruppe
19.02.2013	Tina Notter	<i>The Role of Reelin in Alzheimer's Disease</i>	JMF
26.02.2013	Jill Stobart	<i>Astrocyte signaling during neurovascular coupling</i>	BW
05.03.2013	<i>No seminar</i>		
12.03.2013	Philipp Mächler	<i>FRET nanosensors for glucose and lactate</i>	BW
19.03.2013	Leila Tarokh	<i>Sleep and waking in adolescents</i>	PA
26.03.2013	Antoine Viola	<i>Effects of PER₃ Polymorphism on Physiological and Behavioural Responses to Extended Wakefulness</i>	PA
09.04.2013	Katrin Stadelmann	<i>Changes in the sleep EEG at moderate altitude</i>	HPL
16.04.2013	Sabine Haueter	<i>The role of PKCγ positive interneurons in spinal sensory processing</i>	UZ
23.04.2013	Edmund Foster	<i>Trans-synaptic tracing of dorsal horn circuits</i>	UZ
30.04.2013	Mario Acuña	<i>Positive Allosteric Modulators of Inhibitory Ligand-Gated Ion Channels</i>	UZ
07.05.2013	Helge Johannssen	<i>Functional imaging of spinal cord circuits</i>	UZ
14.05.2013	Zahra Thirouin	<i>Molecular mechanism of BDNF mediated plasticity at GABAergic synapses</i>	JMF
21.05.2013	<i>No seminar</i>		
28.05.2013	Simon Früh	<i>The role of dystrophin-associated proteins in regulation of the GABAergic PSD</i>	JMF
Thursday! 06.06.2013	Dimitrije Krstic	<i>Fanning the flames in Alzheimer's brains</i>	JMF
